A young deer peers over a snowbank before disappearing into the bush. The animal is one of many which gather daily at the Ministry of Natural Resources feeding stations. For a complete report on what MNR personnel are doing to help the deer make it through the winter, see page 5.

Council approves site for log home construction

The Anson, Hindon and Minden township council has granted permission to a local builder to proceed with the construction of log homes along the highway 35 by-pass in Minden, on a temporary basis.

Gary Kenney of the Blairhampton Alternative has plans to build the log homes on the site of the former Pop Shoppe at the corner of Highway 35 and South Water Street. Once Kenney and his crews have completed the homes they will be dismantled and delivered by truck to their permanent foundations.

Kenney is still negotiating with the owner of the property, Albert Yakeley, for the exact terms of the rental agreement. Kenney will lease the land from Yakeley and may use the Pop Shoppe building for a lunch area and storage of supplies. Kenney plans to make promotional literature available to motorists who stop to observe the project.

Kenney anticipates a five-day, forty-hour working week for building at the site. The trees for the homes will be delivered by truck from the Red Pine Plantation in Bracebridge, where they are logged by Kenney's company. They will be transported at tree length and peeled on site.

Kenney told council that chainsaws will be the only motorized equipment used by the construction crews.

Kenney already has permission from two of his customers to construct their homes on the demonstration site. The first project will be a 3,000 square foot house.

Council gave Kenney a tentative go ahead for the

proposal at its February 24 meeting. Kenney is also negotiating for use of a second property on the by-pass, but he told council that the Pop Shoppe site is the most likely location for the project at the present time. Once Kenney has finalized his agreement with Yakeley, council will draw up necessary building permits and determine the tax structure to apply to the work.

February weather

by Phil Graham

	C	F
Average high	-3.5	25.7
Average low	-16.7	1.9
Average for the month	-10.1	13.8
Average for February 1981	-4.5	23.9
Highest temperature (February 15)	6	42.8
Lowest temperature (February 25)	-31	-23.8
Rainfall	nil	
Snowfall	50 cm	19.6 in.
Total precipitation for February	50 cm	1.9 in.
Total snowfall to February 28	222 cm	87 in.
Total snowfall to February 28, 1981	237 cm	93 in.
Snow on the ground February 28	62 cm	24 in.
Snow on the ground February 28, 1981	8 cm	3 in.

The cold and snowy weather of January continued into February this year. A break finally came on the fifteenth of the month when the temperature reached six degrees C. Since then, the conditions have been average for the month. Last year at the end of the month we recorded 16 inches of snow in the bush and none in the open areas. That averages to three inches. The water content of the snow now on the ground is approximately eight inches.

New process will save maple syrup producer thousands in fuel bills

With the help of the National Research Council, Ingoldsby maple syrup producer Wally Crofts will be saving \$80 in fuel costs for every hour of operation this spring. He is at work installing a new double osmosis machine - Memtek - that will undoubtedly revolutionize the Canadian maple syrup industry in the coming years.

Memtek is the federal government's version of a syrup production method that has been on the Canadian market for at least 4 years. The working principle of the machine is osmosis, and the vital feature is a specially designed membrane: water is removed from maple sap by being forced under pressure through pores in the membrane surface.

Using conventional

methods, syrup producers use roughly four gallons of fuel oil for every single finished gallon of syrup they produce. With Memtek working to full capacity, operators will be removing nearly three-quarters of the water before any oil is needed at all. Memtek uses only the energy needed to run three seven horsepower electric pumps. The savings in fuel costs are enormous.

The technical wizardry of Memtek is its membrane. Small holes in the surface of the membrane allow water molecules to seep through, while sugar molecules are repelled by the electronic charge of the membrane's molecular structure. The difference between water and sugar molecules is essentially what makes the membrane work.

Memtek passes the sap through the membrane system twice, hence the name "double osmosis" - removing 70% of the water before the sap is finally boiled in the conventional manner to obtain the finished product.

The same microbes that can break down the quality of sap in the tree can cause problems for Memtek as well. Although the sugar molecules will not pass through the membrane, the microbes do, and they can easily clog the tiny holes in the membrane surface. One of the three pumps that run Memtek is used exclusively to clean the membrane chambers. The control panel will indicate any slowdown in sap flow caused by a blockage of the pores, and the pump then sends pressurized water through the

(more on page 2)

Wally Crofts and the remarkable Memtek maple syrup processing equipment.

Youth wounded in gun mishap

A sixteen year old Newtonville youth was wounded by a gun shot Saturday when the rifle he was handling accidentally discharged.

John Osborne had been hunting rabbits with a companion in Dysart Township. Osborne was inside a Hurricane Lake cottage when he hung the .22 calibre rifle on a nail. The loaded fire arm went off when the trigger struck the nail. The bullet passed through Osborne's right forearm, through a kitchen counter, rebounded off the floor and hit the boot of a second youth who was also in the cottage.

Osborne was taken to Haliburton Red Cross Hospital and later to the Oshawa hospital for further treatment. The second youth was not injured in the incident.

Constable Bob Pearson is investigating the shooting.

Cottage break-in

A theft has resulted in the loss of \$1,030 worth of property from a Redstone Lake cottage.

Owner David Ciancone of Hamilton reported to OPP that T.V.s, stereo equipment and liquor were stolen from the cottage sometime on February 25. P.C. Bob Pearson is investigating.

Youth assaulted

Two Scarborough youths were assaulted on February 22 outside Minden by a man

Syrup

(from page 1)

membranes to clear them.

There are 10 Memteks scheduled to go into operation in Ontario this season. Operators in Sault Ste Marie, Orillia, Belleville and the Lake Huron area are installing machines and there are several in Quebec, the Maritimes and the United States. Crofts is working in conjunction with the federal and provincial governments to test the effectiveness of the machine. He will collect data during the production period and for his labours the \$24,000 price of Memtek will be significantly reduced.

Although Memtek is a remarkable breakthrough in syrup production in Canada, it can't legislate the weather; Crofts knows too well that weather is 99% of the game in syrup production. The crucial issue right now is snow. Unless it melts enough to let frost in around the roots of trees, the sap won't run until too late in the season, when warm days will stir up bacteria that can ruin sap for production.

Crofts will be watching and waiting carefully for the next three weeks, and until the sap starts to flow, he has plenty of work installing and fine-tuning Memtek.

they claim was looking for beer.

David Axon and Bruce Daly, both 18, were parked beside Highway 121 south of Minden at 4:30 p.m. when the man approached them. When they refused to offer him beer the two were punched and kicked.

Police have charged Richard Riel, 22, of Gooderham in connection with the incident.

Constable Weldon Popp investigated.

Pick-up rolls

A 22 year-old Maynooth man escaped with slight injuries after he rolled his pick-up truck on County Road 10 Friday.

Steven Fulton was driving in Harcourt township on Friday afternoon when he lost control on a corner and the 1976 truck rolled over. \$2,000 damage to the vehicle resulted from the crash. Constable Barry Connelly handled the incident.

Road closing clears way for clubhouse

Anson, Hindon and Minden township council has agreed to close the road allowance on a portion of the Queen's line to allow the building of a new club house

on the Beaverbrook Golf Course.

Dave Stevens, owner of the golf course, attended the February 24 meeting of council to request the closure and negotiate the purchase of the land. Stevens will buy the two acre property from the municipality for \$800 plus the legal and administrative costs incurred by council in carrying out the sale.

The property, which is situated between Lot 1, Concession 2 and Lot 5, Concession A, will be used in part for the construction of a

new club house for the golf course. Stevens plans to have

the present building demolished to make room for the larger facilities, which will include living quarters on the second storey.

The two acre parcel lies in the rough leading up the second fairway.

Following the agreement between Stevens and council, the municipality will prepare

a by-law covering the closure of the road allowance. After a public reading the by-law will be presented to County Council and the provincial government for approval.

Stevens hopes to proceed with construction as soon as conditions of the sale are final.

Snowmobiler taken to Toronto hospital

A twenty-nine year old Minden man is in stable condition in St. Michael's Hospital in Toronto following a snowmobile accident in the early hours of March 1.

Paul Prentice was staying with several snowmobilers at the Millionaire's Hunt Camp near Bivouac Lake north east of Kennis Lake. At 3 a.m. Monday morning Prentice's snowmachine left the trail on a curve and hit a tree.

Prentice was taken out of

the camp by sleigh to the Haliburton Wildlife Reserve, where he was met by an

ambulance and taken to Haliburton Hospital. He was later transferred to Peterborough Hospital in critical condition with head and internal injuries. Prentice was later moved to St. Michael's in Toronto.

Constable Brian Ladurantaye investigated for the Minden OPP.

The track at the Minden Fair Ground once again resounded to the sound of racers this past weekend as the Oshawa Sport Club held another ice racing event. Enthusiasts lined the track to watch the cars spin about on the slick track. The weather, for a change, favoured both drivers and spectators as a beaming sun kept those on the sidelines warm, while the track remained hard.

Fire wardens appointed

Anson, Hindon and Minden township council has appointed fire wardens for 1982. Overseeing the general area will be Earl Kent, Albert Cox and Dick Schell. William

Jackson was appointed Fire Chief, and the following men will act as fire wardens for their respective areas: Allen

Austen, Brady Lake; Andy Broersma, Pine Springs; Bruce Nesbitt, Bethel area; Gord Darby, Hwy. 121 and Ingoldsby; Fred Chapple, Carnarvon area.

John Fleming: helping local business grow

Like most other regions in the province, Haliburton County is feeling the pinch created by the slowdown in the national economy. While the tourist trade for the moment appears to be strong, dollars spent on vacations are among the first to be cut when times get tough.

Rather than relying totally on tourism to carry the local economy, the Haliburton Economic Development Commission has taken an aggressive stand in encouraging growth in the Highlands. Specifically, it has expressed the belief that local entrepreneurs form an important source of employment and economic growth if they can be encouraged and helped to grow and expand. As part of this positive approach, the EDC has hired John Fleming.

For the past four months Mr. Fleming has served the Board of the EDC as an advisor on business. He brings with him 43 years experience in business management, gleaned from his work as a manager and director in Toronto's publishing industry. In Haliburton County he is fast becoming an expert on government programs in business financing.

Fleming works through two government bodies in Peterborough - the Federal Business Development Branch and the Eastern Ontario Development Commission - to help make federal and provincial development programs available to county business operators. Fleming's mandate

John Fleming, business advisor for the Haliburton County Economic Development Commission.

from the Haliburton EDC is fairly simple: visit all the businesses in the county and advise on how development can be helped along. Consequently Fleming's schedule is entirely his own and always busy.

A dozen projects

From John Fleming's point of view there is a lot of activity in the county's business community. Fleming works

with an operator to find ways of financing through government assistance and he also helps with product development. He is currently at work on over a dozen expansion projects around the county which are either just beginning or just coming to fruition. The Seawind airplane manufacturing project is one example: after several months of preparation the Creelman group will be

ready for test flights soon.

Business development is a constant field of study for Fleming. He is a member of the Ontario Industrial Development Council and he attends government seminars on business financing at every opportunity.

One of Fleming's chief concerns is bringing industry to the county. "I want to see industry here because it means year-round jobs," Fleming explains. "The dozen or so projects I'm working on now will mean 50 - 100 jobs if they all succeed."

Fleming feels that Haliburton has both the land and the transportation to offer: "This county is a perfect distance from the city," he says. "In Haliburton County we're close to Lindsay and Peterborough, important potential markets outside Toronto. And the transportation facilities are here, too. CP and Freightmaster supply good freight services. I.G.A., Oshawa Wholesale and Canadian Tire all have trucks returning to the city empty. These are some of the opportunities available to us."

Like most county residents, Fleming rues the loss of the CN rail service between Lindsay and Haliburton. "Standard Chemicals used that railway to take loads out of this area all the time. One reason that Muskoka can attract industry is because they still have the railway; that's one of the sad parts of seeing the Haliburton - Lindsay run go..." Fleming comments.

Specifically, it is light industry that Fleming feels would suit the county best: "It has to be small; for example, manufacturing. We need industry that doesn't create problems with waste. The county is all rock so waste disposal is difficult; anything toxic has to be trucked out."

Fleming is already looking at the forest industry. He sees it as a major industry for the county, but one that is undoubtedly in trouble. "A lot of people in the lumber business are talking of closing up," Fleming says. "The hardwood market is flat all across the country. The furniture industry is down

"The hardwood market is flat all across the country."

because there are no new houses being built. It's the economic condition of the times".

So far Fleming is in his first six months of the job, and in the next year and a half he hopes to meet with every business operator in the county. "It's a matter of knocking on doors," Fleming says of his work, "and it's a long way around this county to knock on them all." As a cottager on Koshlong Lake since 1946, Fleming knows the county well; he used to ride the Haliburton-Lindsay run himself in the 1920's. Fleming is already advising on development projects from Dorset to Wilberforce, and he makes a point of being available to anyone with a question about business.

He can be reached through the Haliburton Chamber of Commerce or at his home number, 457-2263.

Galway-Cavendish council establish spraying criteria for Ontario Hydro

Ontario Hydro's program for clearing rights of way under power lines has drawn wide-spread objections from cottagers in Galway-Cavendish township, and the municipal council is now taking steps to ensure that Hydro's actions will fall into line with the environmental standards of the municipality.

Since last fall cottagers in the township have complained that Hydro's use of herbicides on rights of way each spring have been destroying the looks of the land. Many objectors are concerned that herbicides used in the spray-

ing program may endanger well systems and gardens close to the rights of way. At a meeting February 13 the Galway Cavendish council drew up the following conditions for allowing the spraying to continue:

No spraying in any right of way leading to water for as far as you can see from the water.

Hydro will undertake to cut all size bushes killed next spring.

Hydro will not spray the allowance where anyone has objected.

Hydro will create buffers where appropriate to hide the

after effects of the spraying.

The stipulations have been presented to Hydro in a letter from the council. Hydro has not yet responded.

Cavendish council also requested written assurance from Hydro that any property owners who still object to the spraying program, and who undertake to clear any right of way themselves, will not be held responsible for damage to Hydro lines resulting from falling trees. In addition, council has asked that if rights of way are not maintained to Hydro's standards, additional clearing will not be done with

herbicides.

Ratepayers in Cavendish township still have the opportunity to object to the program, providing they make their views known to Hydro by April 15 of this year. The Ontario Hydro office in Peterborough is handling responses to the proposed program; objections can be submitted in writing to Ontario Hydro, 913 Crawford Drive, P.O. Box 1049, Peterborough, Ontario. K9J 7A8.

editorial

It looks better from here

March. Winter isn't quite over. Spring has yet to arrive. There's still enough snow to attract visitors, but somehow the interest in winter sports is starting to flag.

Business is slow and the only thing which sustains the merchant is the knowledge that if he has made it this far, he will more than likely survive to see another summer. The proverbial light at the end of the tunnel has just winked into view - it may be distant, but at least its presence offers encouragement.

Reports in this week's edition of The Times point out two very promising elements of the local economy.

Wally Crofts, owner and operator of one of the best known maple sugar bushes in the county is moving into the space age. Modern technology has greatly reduced the fuel requirement of the maple syrup industry. The savings will mean a great deal to local producers, many of whom have been reluctant to commit any more investment to an industry that was quickly being eroded by spiralling fuel costs. The new system should also provide an incentive to other producers or to those who had considered bringing their bush into production.

Our report this week on the efforts of John Fleming on behalf of the Haliburton County Economic Development Commission also indicates that at least some people are able to envision a brighter economic future for the Highlands. John says he is kept busy answering enquiries from local entrepreneurs concerning government assistance for various schemes. Some want to expand what they are presently doing, while others have a new idea they feel merits a try. In either case, it is encouraging to hear that these are individuals with faith in the future. We hope John will be kept busy for a long time to come.

March. The sun feels warm on the face. Snow melts and drips from the eaves. The promise of better things to come is in the air.

Winter woods

letters letters letters letters

Editor:

In regard to your editorial last week regarding the Chamber's presentation to County Council I felt it important to point out an important misconception in your observations.

You suggest that the Chamber is asking for too much support from the County in relation to what the members themselves contribute and point out that the budgeted membership is only \$18,000.00. You failed, however, to look further into the budgets to see that through the used membership services and participation in advertising and promotion programs, the members contribute an additional \$32,600.00. This brings the total membership contribution to over \$50,000.00 which certainly qualifies as more than the 50% of what we propose the County invest in promoting the County.

Another consideration is that a large number of our members particularly those in the accommodation business already spend a great deal of money in advertising in order to bring tourists to their own resorts and therefore into Haliburton County. And while I have no figures on this I would strongly suspect that collectively they spend far in excess of \$60,000.00.

The money that is being requested from the County is, of course, municipal tax dollars. The Chamber members contribute in no small way to that source of funds. Most pay residence, commercial and business taxes and in a way this is to a large extent their own money they are asking to direct to this end.

Rhonda Elstone, President
Haliburton Highlands
Chamber of Commerce

Editor:

I would like to say 'Thank You' to the Snowdon Supporters and to all who have shown a creative interest in building the fine ski trails in the Snowdon Park, an opportunity to travel in beautiful wooded country, across marshes, beaver ponds and dams, and to enjoy interesting and varied skiing.

For those who do not yet know where this facility is, it starts just south of South Lake Road on County Road 1 (old highway 519) and runs west to South Lake near Silver Birches.

I find it a great place to visit and I look forward to seeing the establishment of hiking trails for other seasons of the year. It is good to see this kind of development being carried out.

Well done!

Fred Elson,
Gelert.

Editor:

I received a letter of reprimand on June 3, 1981, from Hyland Crest accusing me of a so-called fraudulent scheme. Since then I have heard numerous rumours, for example that I paid student wages, or that my actions resulted in the dismissal of the supervisor, etc.

After discussing this situation with a national representative of the Canadian Union of Public Employees, it was decided to respond to the action by seeking arbitration.

Two weeks before the arbitration hearing, I received the following letter from the County of Haliburton.

To Who it May Concern:

Re. Arbitration case, Jane Potter and the Canadian Union of Public Employees, Local 1225 vs. Hyland Crest

Senior Citizens' Home.

The employer, Hyland Crest Senior Citizens' Home has withdrawn the disciplinary letter of June 3, 1981 against Jane Potter unconditionally as of December 28, 1981.

The employer now fully realizes that Mrs. Potter acted in this manner under direct supervision and without knowledge that she was violating Home Policy.

This letter is without

prejudice to our rights at Hyland Crest Senior Citizens' Home and the Provisional County of Haliburton in other proceedings.

The letter was signed by the county clerk-treasurer Mrs. W. Lahay. I am making this letter public to set the record straight.

Jane Potter,
Minden.

outdoors

by Ron Reid - Federation of Ontario Naturalists

Ontario's system of 131 provincial parks covers an area larger than Scotland. Traditionally the management of parks has been the responsibility of the Ministry of Natural Resources, but with the creation of a new Ministry of Recreation and Tourism in the recent Ontario Cabinet shuffle, a change may be in the wind.

Any department concerned with recreation can't ignore parks. About 6 million Ontarians visit provincial parks every year, meaning that over half of us visit in any given year. But recreational use has dropped sharply since 1975, and foreign tourist usage of Ontario parks has been cut by half since the 1960's.

George Priddle, former chairman of the government-sponsored Parks Council is one of many conservationists who blame MNR for the decline. A shrinking funding base for parks, fewer services for visitors, and an unwillingness to designate new parks have frustrated park supporters and staff alike over the past five years. A shift to the new ministry could provide the necessary new resources and new ideas to turn around the fortunes of

the parks system.

There are some disadvantages in shifting parks right now. A long-range plan for completing the parks system, to be achieved mostly by setting aside chunks of Crown land, is now before Alan Pope, the Minister of Natural Resources. If parks administrators move, some mechanism to designate those future parklands would also be needed.

The Federation of Ontario Naturalists has renewed its call for consideration of a parks trust; to promote a more efficient and independent service. The trust would be similar in some ways to Parks Canada who manages our national parks. The trust could be given the responsibility of completing a representative system of provincial parks within 10 years and becoming financially self-sufficient in the same time period.

Whatever the options, the choice of a home for provincial parks is likely to be a controversial one. In the final analysis, the choice should be made on the basis of which structure will provide the best opportunity to achieve the protection and recreational objectives of the parks system.

Winter feeding helps sustain area deer

While deep snows make feeding difficult for deer herds this winter, the MNR is taking steps to ensure a good survival rate for next year.

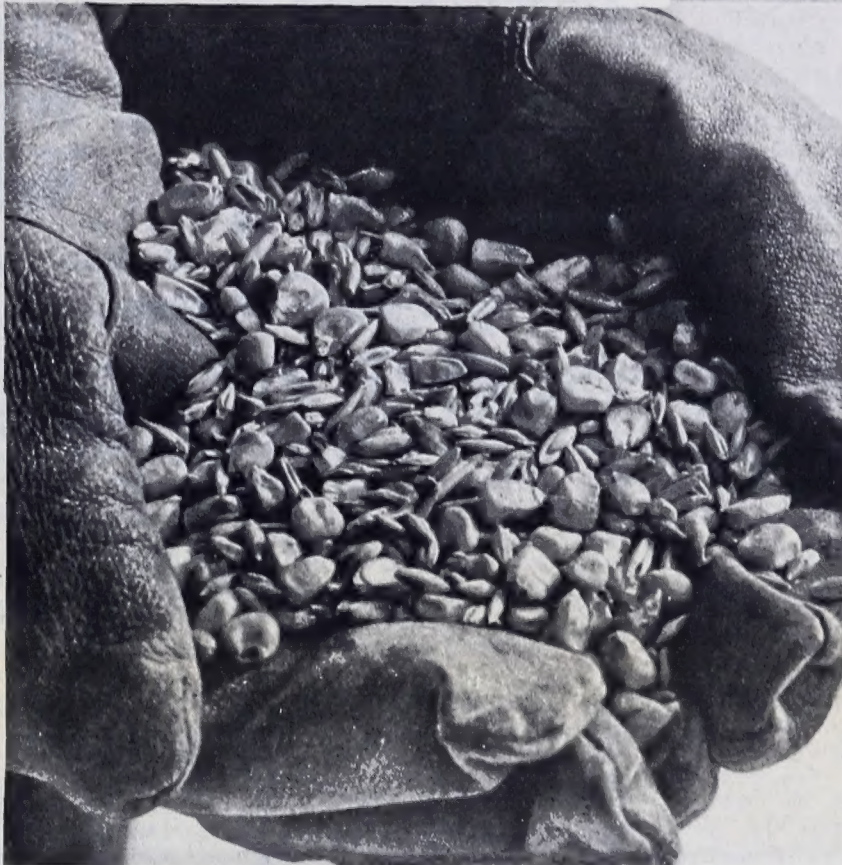

Trying to sneak up on a healthy deer in the bush is like trying to catch your own shadow; the closer you get, the sooner you're due for disappointment. But by far the easiest way to find then this winter is by watching one of the Ministry of Natural Resources' deer feeding areas. In a winter of deep snow, the Ministry's feeding program may be making the difference between a healthy and a weak population for next year.

Deer spend most of their energy in winter feeding on the tips of tree branches — mostly maple, poplar and cedar — which form the staple of their diet. This year's heavy snow cover has cut back their range severely and made a lot of their food inaccessible. Under these conditions the supply of browse alongside their trails has been quickly depleted.

The Fish and Wildlife branch of the ministry helps to counter deep snow conditions by cutting browse for deer. They've been doing it for fifteen years now, it's a feeding method that is widely used and very effective. A single saw cut can bring down a huge amount of browse within reach of the deer, and new growth from old stumps augments the supply. But with wages and transportation and equipment costs rising, browse cutting has become less and less efficient. A new grain feeding program has been devised to meet the need.

Dave Atkinson is regional supervisor at the MNR Minden office, and whenever he can escape from behind his desk he's in the bush, checking up on the seven feed yards in the district. Last week Atkinson placed a new feeder of his own design in several yards in the area. The feeders are designed to provide a constant supply of grain to the deer; they hold roughly five gallons of grain at a time.

Atkinson knows exactly where to expect the deer to feed. "The same group of animals will winter in one area of 25 - 50 acres year after year," Atkinson explained while driving a ministry truck out to one such deer yard on the Vankoughnet Road last week. "Even when food is scarce, they won't move to find new feed". The Fish and Wildlife Branch has found tagged deer have travelled as far as thirty-five miles only to return to the same area. The signs of a deer yard are obvious; well-broken

Above: healthy deer are alert and fast, and nearly impossible to surprise.

Left: corn and oats are used to supplement the winter diet of deer in the Haliburton area. The corn provides carbohydrates, the oats, protein.

trails and droppings everywhere, and large trampled areas where the deer bed down.

The deer yards are the perfect place to provide food when the conditions are rough. The MNR has bought 14 tons of grain so far this season — corn for carbohydrates and oats for protein — and it is set out in seven different yards in the Minden district. Atkinson describes the program as making plain economic sense: "You get more food to more deer for your money than you could cutting browse," he points out.

Besides Atkinson, there are eight men looking after the program this year. Denis Brufe of Fish and Wildlife coordinates the program, and Jack Roberts and Dan Goodwin look after breaking trails by snowmachine so the deer will have a better chance to find good browse.

Left: Atkinson has found a different use for Ministry hardhats; he uses them to hold grain in the newly-designed feeder.

The backbone of the program, though, is the men who set out the feed for the deer. Ron Robinson, John Brunette and Bill Bollon are on contract with the government to keep feed out at the deer yards. Jim Austin and Curry Bishop do the same job on a volunteer basis. Robinson is on the trail six days a week, supplying yards from Welsh Lake east of Kushwin to several yards in western Hindon Township. It's not uncommon for him to come across forty deer in a yard on his way to put out the day's feed; he's seen two moose at a yard on the Vankoughnet Road.

While the Ministry's feeding program has helped deer survive bad conditions, the selected harvest system has roughly doubled the district population in two years. Fish and Wildlife began issuing special hunting permits for does and fawns two seasons ago, and the results have been very encouraging. In

the two Fish and Wildlife units in the Minden district, 168 antlerless deer permits were issued last year out of a total of approximately 4500.

Protecting the does and fawns this way ensures a good crop of fawns each spring. As Atkinson sees it, "a farmer can't sell his cow in the fall and expect calves in the spring."

This month is always a critical one for the deer population. Does are now carrying fawns and their natural food supply is almost gone. If the snow goes fast, more browse will open up and the does will drop healthy fawns in the spring. If the snow stays on too long or a late storm hits, the weakened does can easily abort and last year's fawns will be in danger as well.

Warm weather can also increase the problem with wolves. Warm days followed by cold nights will form a crust on the snow. If it will hold the wolves, the deer have almost no chance to outrun them. Although deer can sometimes run on a hard crust, it will never support them running.

Domestic dogs are another threat; Atkinson says one dog has already been shot running deer this season. Besides losing the animal, the owner of a dog found loose in a deer area can face a fine of as much as \$5,000.

Judging from his observations this season, Atkinson feels the program has been a success. Despite the snow, deer herds look healthy and large, and any photographer will find they're nearly impossible to surprise, the sign of a strong and alert animal.

If the deer take to the new feeder Atkinson has installed, it will mean an assured food supply through the critical months of March and April.

And, while the grain feeding program appears to be succeeding with the deer, it hasn't hurt other inhabitants of the forest either. Atkinson reports that as a result of the ministry's generosity, the area can boast some of the fattest hares and chick-a-dees in the province.

by Staff reporter David Swail

from the chamber

by Bob Stinson

"Tourism is alive and well and has arrived in Haliburton County!"

That should come as no surprise to most of us but oddly enough there are aspects of this statement that have not been entirely obvious to everyone.

Tourism by many is still looked upon as a two month seasonal business that is supplemented by a few additional long weekends. That outlook can quickly be dispelled by joining the long lines of traffic that wind into the county each weekend at this time of the year --- and let us not forget that there is still an energy crunch and a recession taking place. This phenomenal growth is going against the grain of the economy.

Some years ago the winter carnivals were developed to encourage activity over a couple of weekends. Then the organization of several hockey tournaments and curling bonspiels created more accommodation business. In the meantime, the development of snowmobile and cross-country ski trails and a top quality alpine ski hill have provided visitors with some excellent reasons to come here any time that there is snow - which is for approximately four months.

Last year the hockey tournament organizers became very aware that they were no longer helping matters by holding a tournament in February because accommodation is filled without the benefit of their activity. Rather than discontinue the tournament, however, they moved it to an otherwise slack period thus expanding the season.

A couple of weekends back, when there was no tourna-

ments or carnivals taking place anywhere in the area, several restaurants expressed genuine surprise at how busy they were although no events were scheduled. The Haliburton Winter Carnival organizers also found themselves dealing with overflow crowds at their specific events such as the dance, breakfast and dinner while the carnival itself was low key and not really designed to attract anyone from a great distance away. The message here is that we have in fact "arrived" as a destination vacation area in winter. The events are no longer needed as much as the facilities to attract visitors.

This is not to say that the events should be discontinued. They should though be considered, in view of this developing trend, to be either an attractive added feature for those who will be in the area anyway, or moved to a fringe time of the season when they can be used to create more traffic where it is not now in evidence. In addition, we should not be too hasty to turn our backs on those who have worked so hard on these events over the years. It was, after all, those events that brought us to where we are today.

More emphasis must be placed on facilities. The trail systems that have now proved to be such a great asset to particular parts of the county must be expanded or duplicated in others. Accommodation in many places needs to be upgraded or duplicated in others. Accommodation in many places needs to be upgraded and experience certainly proves that this will happen as rapidly as the demand can be created.

coming up

Saturday, March 6: 10 a.m. - 4 p.m. Flea Market at Haliburton Legion, Branch 129. Lunch available.

Tuesday, March 9: Junior Horticultural meeting at 7:30 p.m. Municipal office.

Friday, March 12: Card Party sponsored by Hyland Crest Auxiliary, in the auditorium. Prizes and refreshments. Admission \$1.00.

Sunday, March 14: Minden Figure Skating Club presents the annual Skating Carnival, 2:00 p.m. at the Minden Arena. Theme: "TV on Ice". Advance tickets available from club members.

Monday, March 15: Red Cross Annual dinner meeting, 6:30 p.m. at the Wagon Wheel. Tickets available at Minden Drug Store.

Kin ski day in Wilberforce

On Saturday, March 6 the South Algonquin Kinsmen Club are holding their Kin Ski Tour and Shantymen's Dinner. The tour gets underway at 2:00 p.m. at the ski area on Wilbermere Lake just west of Wilberforce. The

fare for the tour is only \$2.50 and the dinner at the Lloyd Watson Community Centre is \$3.50 and that will be followed by a good old fashioned sing-a-long. This event had to be cancelled last year because of the lack of snow but that should be no

problem now and it sure sounds like a lot of fun. Join in, won't you?

Last call

We have talked to many people who are apparently planning to attend the retirement party for Bruce and

Wednesday, March 3, 1982

Marion Henry on Sunday evening, March 7 at Wig-a-mog but some have not ordered their tickets yet. Please help the organizers by phoning either the Chamber 286-1760 or Wig-a-mog Inn, 457-2000 to indicate your intentions. See you there!

Kathy checks in from Down under

Kathy MacGregor is a Minden area high school student who is spending a year overseas as a participant in an exchange program. The Minden Rotary Club is sponsoring her visit and, in return is host to a student. Kathy agreed to share her experiences with our readers. The following is the most recent of her reports.

Sorry to take so long to write but with it being summer here, time seems to be at the premium, especially when you're an exchange student.

Since my last letter school has been dismissed for summer holidays. Before this dismissal there were, of course, those dreaded exams. I did sit the exams and

managed to do reasonably well. I found all of the exams, except English, relatively similar to those administered in Ontario. As mentioned the English exam was different with much more emphasis on essay writing.

While at school I have been involved in a number of activities there. I was selected as a prefect, played on a

school volleyball team and also was selected for the senior girls cricket team. Playing cricket was a first for me but after a few weeks of coaching and hard work I bowled the ball as if I had done it for a few years. It is similar to baseball in some aspects, having a batsman and a bowler (equivalent to a pitcher). There are also fielders similar to those of baseball. Our team has done well so far and we look forward to the resumption of our season when school starts again.

Christmas was different here to what I had previously experienced. The weather on Christmas day was fairly warm (approximately 25 degrees C) and very humid. Some of the days just before December 25 were hot (30 degrees plus). With this type of weather and not as much commercialization as at home, I found that unless I was aware of the calendar, Christmas could be easily

passed by without me knowing! The traditional meal is different as we indulged in turkey with salads etc. and for dessert we had berry fruit with ice cream. The activities during the actual holiday season included swimming, tennis and water skiing. I can truly say that Christmas 1981 will be one that I will never forget.

After Christmas I started a month of 'holidaying'. I flew from Wellington to Nelson (a city on the north tip of the South Island). I spent 8 days in this area, staying with Peter Stevens. Peter is a Rotarian from Nelson who, last summer, visited Canada and just happened to do a make-up meeting at Minden! It was great to be with someone who had been in Minden and knows a bit about the area etc.

From Nelson I travelled to the Marlborough Sounds, to a Carterton Rotarian's cottage. The Sounds are also situated on the northern tip of the south island. These

Sounds are very scenic. Many people say that they are very similar to the Norwegian fiords. The fishing was good. My first conger eel, octopus and blind eel all proved to be a 'different' experience.

Returning home to Carterton from the Sounds for a day gave me a chance to get things organized in order to leave again. We (host Mom and Dad) left for the central and eastern portion of the North island. In this region are the thermal regions where

boiling mud, geysers and hot springs are common place. Many tourists to N.Z. visit these areas of Rotorua and Taupo. We spent a week in this area, taking in all the sights and attractions.

As you can see, I have been fairly busy lately but am now enjoying a few quite days at home 'til school starts.

Hope all is well in the Minden area. My best wishes to all friends in the region.

Hooray (N.Z. expression for good-bye) 'til next time.

Kathy

Special education program explained

On Thursday, February 25, a meeting of the Archie Stouffer Home and School Association was held in the school library. The topic of discussion was Special Education.

Bill 82 says "any child who has an exceptional ability must be considered for placement in a special class". Mr. Stuart Baker, principal of Archie Stouffer Elementary School, along with Mrs. Ernice Warder and Mr. Ted Reid, both special education teachers, presented a very interesting discussion on how Special Education at Archie Stouffer School was meeting the requirements of Bill 82.

Mr. Baker described how the Minden school has junior (Grades 2-3-4-5) and senior (Grades 6-7-8) Special Education classes as well as the availability of a speech correctionist, a part-time remedial teacher, a psychometrist, and a sensory integration program.

The procedure for assessing and placing children in these programs was explained, and the possibility of including future programming for the gifted child was discussed.

Mrs. Warder, junior Special Education teacher, then gave a practical demon-

stration of what it would be like to have a perceptual learning disability and techniques of therapy to deal with such a problem. She said that although these children usually have average or above average ability, they "see differently". It is not yet fully understood why this happens but now that teachers are being trained to identify these problems, children are not being labelled lazy or slow-learners as has happened in the past.

Mr. Reid, senior class teacher, then described his unique program and presented some most interesting comments from his students as to how they feel about the Special Education class. Some of those comments: "you learn not to be helpless", "we have trust (in this class) and can talk about our problems", "we learn how to cope with the outside world".

When asked if they preferred full time or half time special education, students generally preferred half time so that they could see "other friends" (outside that class).

This very interesting and informative evening closed with questions and comments from the parents and coffee and cake being served.

kinette corner

by Linda Pentney

The Kinette club held its sixth meeting of the year at the Wagon Wheel Restaurant on February 9 with the theme of this meeting being "Mother and Kids Night".

Another good turn out for this meeting with only one member absent. The kids seemed to enjoy watching what happens at our meetings and when things got a little dull for them they played games in the recreation room.

Our Valentine's Dance was a great success and everyone had a good time. All proceeds from this dance will go to community service. Thanks everyone who came and supported us, we hope you

had a good time as well.

Spring conference for all the Kinsmen and Kinette Clubs in our zone is the next big project we have upcoming. Kinsmen and the Auxiliary clubs from as far away as Brighton and Bancroft will be coming for a meeting at Wig-a-Mog Inn the last weekend in March.

The Kinette's are planning another Masquerade Ball for May 1 - more details will be available soon.

Watch for the Kinsmen's giant Flea-Market coming this spring. If you are house cleaning and find some good junk, let us know at 286-1584 or 754-2270. All proceeds from this event will go to Cystic Fibrosis.

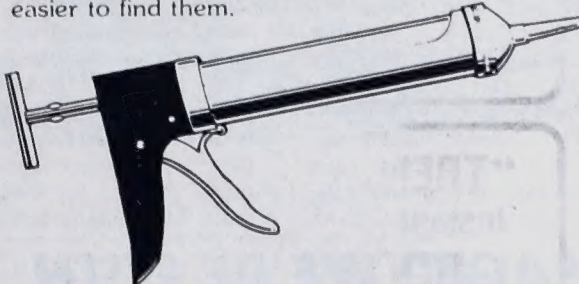

ARE YOU GOING TO SPEND ANOTHER WINTER HEATING THE GREAT OUTDOORS?

Drafts and cold spots in your home are where your heat is escaping. Whether your house is old or new, tiny cracks and holes — in the attic and basement, around windows, at electrical outlets — are allowing a substantial amount of your heat to leak out.

Why waste energy heating the outdoors? Be more comfortable, and weatherize your home.

You can do it yourself for very little cost and effort. All you need are a caulking gun, caulking, and good quality weatherstripping. Sealing the air leaks in your house will probably cost less than \$100, and take a few hours of spare time.

Because you should weatherize your home from the inside, **now** is the best time to do it. During the winter the drafts are stronger and colder, so it's easier to find them.

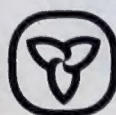

TO LOCATE THE LEAKS:

Explore your house on a windy day. With the back of your hand you can easily feel the drafts.

Is your attic warm? If so, your heat is bypassing the insulation. Check for cracks along interior walls, and stains in the insulation.

Much of your home's air will leak through the space where the foundation meets the house walls in the basement. Check wiring and plumbing holes that go through outside walls, too.

Ontario

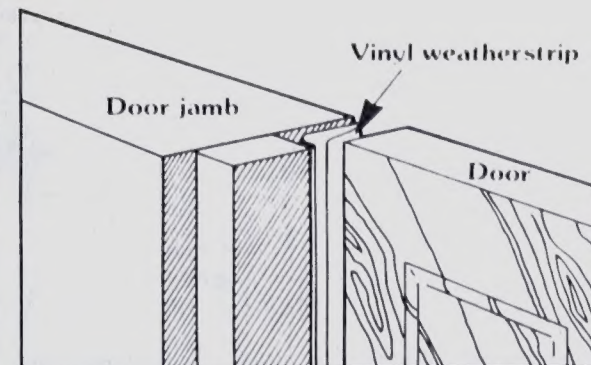

Ministry of Municipal Affairs and Housing

Claude Bennett, Minister

William Davis, Premier

TO SEAL THE LEAKS:

Weatherstripping has been greatly improved in recent years, and can easily be fitted around most windows and doors. Clear silicone caulking along baseboards is invisible when dry and easy to apply.

We can tell you more about the fastest way you can stop heating the outdoors, with the least cost and effort. Clip this coupon now. For the cost of a stamp to mail it, you'll receive our detailed, 16-page instruction booklet showing how to find your home's air leaks and which materials to use to seal them — and we'll send you our Fact Sheet on **FRESH AIR AND HUMIDITY IN A TIGHTER HOUSE.**

puck talk

Minor hockey league teams began their season play-off games several weeks ago, and it proved to be a hard series for Minden. The Novice, Pee Wee, Bantam and Midget teams were all eliminated from further play in the eleven games played last week, bringing Minden minor hockey to a close for the season.

Novice

The Novice team dropped their best of three series to Fenelon Falls in a game at home Tuesday, (February 23). Scoreless after two periods, Fenelon Falls scored twice in the first five minutes of the third to take the game and the series 2 - 0.

Pee Wee

The Pee Wees split a pair of games winning 7 - 3 against Sunderland on the road Tuesday and then dropping a 7 - 2 game to Orono at home Saturday. Gord Wood had three goals and two assists to lead Minden in points. David Schell, Tom MacLeod, Trini Elias and Kent Taylor had the other markers for Minden. John Wells, Corey Davies, Sean Best and Tom MacLeod had assists in the game.

Tom MacLeod had another goal against Orono Saturday and Scott Russell added the second on a pass from Corey Davies, but Minden went down 4 - 1 after two periods and never came back. The two games were the last of a round robin play off for Minden. They finished the tournament with two wins and six losses.

Bantam

The Bantams had a rough week in their play off efforts, dropping three games to finish the round robin with a 3 - 7 record.

Mike Gorveatt had four goals Monday, (February 22) at Sunderland and Glenn Hall added a fifth, but the Sunderland Bantams were ahead 6 - 1 going into the final period and Minden couldn't come back. Craig Burk, Greg Newell, Paul Aggett and Glenn Hall all picked up assists.

The Bantams were shut out twice in round robin play. Minden had trouble in Little Britain when they went down 5 - 0 in Wednesday's game (February 23). The team had the same ill-success against Bewdley at home Sunday, this time dropping a 6 - 0 decision.

Minden did come out with a win Saturday, however. Playing Bobcaygeon in Minden, they went ahead 3 - 1 after two periods and hung on in the third to win 3 - 2. Greg Newell had two goals for Minden while Daryl Ward had another. Jeff Howe assisted on two goals.

Midget

The Midgets finished with the best record of all the Minden minor hockey teams, but still couldn't advance to the next round of the play offs. Minden won two, lost two and tied one in their four games last week.

The Midgets opened Tuesday in Bobcaygeon with a 2 - 2 tie. Scott Hamilton and Andrew Shapiera had a goal and an assist each and Tim Wood and Greg Newell had assists as well.

Scott Hamilton went on to get two goals in Little Britain Friday, but Minden buckled 7 - 2 to a strong Little Britain team. Shapiera and Newell had assists in the game.

It was easier for the Midgets against Orono at home Saturday. Minden won it 6 - 1. Andrew Shapiera played well again, netting two for the Midgets. Jeff Stamp, Wade Barry and Scott Hamilton all had singles. Doug Schell turned in three assists, Rob MacLeod picked up two, and Harold Cowen and Scott Hamilton had one each.

The big game for the Midgets was Sunday, at home against Sunderland. The Minden squad was down 5 - 4 going into the third and came back with three goals to win 7 - 6.

Shapiera and Hamilton led the Midgets again. They had two goals each and an assist with Shapiera getting the winner with only 33 seconds left in the game. Tim Wood also had a big game with a goal and two assists.

Doug Schell had a goal and an assist and Jeff Stamp supplied the other goal. Rob MacLeod, Wade Barry and Harold Cowen all had assists.

The schedule

That brings to a close regular season play for all minor hockey teams. Two tournaments are still to be played. On March 13 the Minden Atoms will be hosts for teams from throughout the area while the annual Tyke tournament will be held March 27.

*It's not work
to walk.
So why not
walk to work?*

PARTICIPATION
The Connection movement for personal fitness.

The Minden Pee Wees played their last game of the season Sunday against the Rice Lake Trappers. All Minden Minor Hockey teams have now ended the season, having been eliminated from further play. The Trappers defeated Minden 4 to 1.

Senior 'spiel well received

Last Saturday saw the first mixed senior 'spiel at the Haliburton club, proving a big success, and warranting the same format on a yearly basis.

Fourteen rinks, including

Hartwick leads series

Hartwick Construction has jumped into a one game lead in the best of five finals of the Men's Recreational Hockey Lea ue.

The first game of the play-off was played Monday evening. The Hartwick team defeated Home Hardware 10 - 8 in a hard-fought contest.

In the consolation round, Rockcliffe Hotel Foam Blowers romped over Hall's Insurance 15-7.

The Minden Recreational League will be hosting a tournament this Saturday at the arena. The four local teams will be playing the four from Haliburton. The action gets underway Saturday morning at 8 a.m. and continues all day. A dance has been planned for the evening at the Community Centre.

The public is invited to take in the action Saturday at the arena and join the teams at the dance in the evening.

visiting rinks from Minden and Bobcaygeon took part, with the Ross Forbert four from Bobcaygeon taking top honours with 31 points. They were followed closely by Ed Pettinger from Minden with 31. Ed had his wife Peggy and Cec Yearwood and his wife Lewellen backing him - a strong rink.

Don Clees skipping a Haliburton rink of John Beachli Sr., Roy Nichols and Eileen Crawford topped the second draw with 31 points.

Rinks scoring 25 or over were skipped by Herb Gill, Tom Hurtt and local Jim Holmes with Jim Grant, Jack Bassets, Bill Mightens, Les Wallings and Walter Webbs' rinks coming close.

The Haliburton club has been experimenting by planning and playing a mixed group. It seems to be so popular that it will continue. We believe the sociability is increased, and if at times the calibre of play may be criticized a bit - the spirit and enthusiasm on the ice makes up for it, and the club is now using four sheets of ice from a small beginning of only 8 or 10 curlers.

Other district clubs tell us they will try and duplicate our example and this would lead to more mixed 'spiels within easy driving distance.

Our season now comes close to the end for 1982 - playoffs beginning in a week

Tim Davies tops 100 in final Huskies game

Tim Davies went into Friday's game against Huntsville — the team's second last of the season — with 98 points. He went to the dressing room at the end of the game with 98 points and a lot more determination, probably even a silent oath. Sunday Davies came out against Oro and scored three goals in the first twenty minutes. There was no doubting that he wanted to finish the season with 100 points, and just to be sure he got 105.

Davies joins linemates Ron Yake and Dave Nicholls in the over-100 club. The three players are not only the highest scoring Huskies in

history, but undoubtedly one of the best lines in the league.

The Huskies split their last two games of the season and in doing so they missed their chance for third place, finishing the season in the number five spot in their division. The necessary win over Huntsville was frustrated by half a dozen goalpost shots in the opening period and, although everyone at the game felt Huntsville was outplayed in all three periods, Haliburton dropped out of sight 9 - 6 and Huntsville wound up fourth in the division.

At the 1:41 mark of the second period Huntsville had

a 5 - 0 lead. By that point it didn't matter who was outplaying whom. Haliburton's first period had been dismal only because their persistent pressure never paid off with a goal. Ed Roberts finally connected from Chris Hodgson and Scott Arbuthnot while the Huskies were a man short, and soon afterwards Shaun Chapman made it 5 - 2 on a pass from Dave Nicholls to end the period.

The Huskies still weren't licked. They turned in a rare show of strength in the third period to come within a goal of tying the game. Huntsville went up 6 - 2 while short-handed at the :47 mark, and at 4:55 they were up 7 - 2. Haliburton finally came to life

with four straight goals. The line of MacInnes, Ed Roberts and Chris Hodgson connected twice in a row, with MacInnes getting the goals, and then Scott Arbuthnot picked up two first from Ron Yake and Dave Nicholls and then from Duff Mitchell. At 14:53 Haliburton was within one and still pressing. Huntsville found the mark twice more before it was over, however, and the Huskies went home for Sunday's game with a 9 - 6 loss to consider.

Sunday game

Davies opening period performance sparked the Huskies to a commanding 10 - 3 win over Oro. Davies added four assists to his first period

hat trick: after one period Haliburton led 4 - 1 and going into the third it was 7 - 1.

Scott Arbuthnot picked up two goals and two assists in the season's final game. Dave Nicholls had two goals and assisted on all of Davies' goals. Third period scoring was engineered in turn by Kevin Shapiera, who set up all three Haliburton goals. Ed Roberts had a pair of goals, Ron Yake marked up a pair of assists to finish the regular season with 131 points, and Shaun Chapman provided the other Huskies' goal. Duff Mitchell, Gary Harrison and Rob Abbs all had single assists in the game while Chris Hodgson turned in two.

The Huskies start a best of five series against third place Parry Sound this week. The team is confident of their chances in the light of their record against Parry Sound so far this year; they've beaten them three times, lost twice and tied once. The series begins Tuesday night in Parry Sound, then moves to Haliburton for an 8:30 game

Thursday night. Friday night the teams are back in Parry Sound, Saturday they are in Haliburton and Sunday, if necessary, they'll return to Parry Sound for a 2:30 p.m. start. In other match ups Bracebridge will take on Huntsville and Penetang plays Gravenhurst.

Robinsons claim tournament title

The Carnarvon 5 Pin Bowlers Association held their annual Mr. and Mrs. Tournament on Sunday, February 28.

Taking first place were Ronnie and Marlene Robinson winning \$25 with a plus 274 pins over average. Second place went to Bruce and Gail Medcalf with 174 pins over average winning \$15. Third place winners were Keith and Aloma Johnson with 165 pins over average, winning dinner for two at the Dominion Hotel. Fourth place went to Lyle and Lorraine Loshaw with 147

pins over average, winning a gallon of paint.

Fifth place winners were Reg and Doris Hart with 105 pins over average winning a set of candles from Audrey's Consignment Store. Sixth place went to Ray and Lou Conway with 76 pins winning a set of towels donated by Ev Stata. Luther and Nettie Wilson with plus 69 pins won a voucher from Mary Lou's Take Out with a plus 60.

The tournament was enjoyed by all.

Zone round for winners will be held in Bancroft, March 21.

Planning started for Fun Day

If the winter is starting to seem it will stretch on forever and that summer will never come, county residents can take heart from one group of Stanhope Township volunteers who have their eye on this coming July.

Under the direction of chairman Ann Barker, vice chairman Dorothy Finch and secretary Marlene Deller have already started to lay plans for the annual Fun Day in that

community. The committee has already selected July 24 as the date for the event. This will be the fourth year it will be held.

The Stanhope Fun Day is basically a community picnic with a wide open invitation to anyone who wants to take part. Most of the events planned for the day are free.

Many of the familiar events are back on the schedule for

the 1982 edition of the Fun Day. There will be races for the children and adults, with the emphasis on participation. Contests will be held in various categories. "This year we are planning to hold another photo competition," Ann Barker explains. "Anyone interested in entering might start looking now for

suitable subjects."

"Of course, again this year we are planning a special tea for senior citizens," Mrs. Barker commented. "It always proves to be a popular event. Last year close to 100 seniors gathered at the fire-fighters' hall for the afternoon." She explained that many of the young people of the community help serve tea and make the seniors comfortable. "The intermingling of the young and old is enriching for both groups," Mrs. Barker noted.

One change in this year's program sees the barbeque

moved from the afternoon to the evening. It will be held in conjunction with an evening dance. Of course, food will be available during the day as well.

Tickets for a hind quarter of beef to be raffled in conjunction with the Fun Day, will go on sale May 24.

"As the Fun Day gets closer more details of the events will be finalized," Ann stated. "As usual, we are always looking for volunteers to assist with the planning and during the day. Anyone interested in helping out should get in touch with me or any member of the committee."

If I am asked to name the one comfort in sorrow, the safe rule of conduct, the true guide of life, I must point to what, in the words of a popular hymn, is called "the old, old story" told in an old Book, God's best and richest gift to mankind.

1982 Dog Tags NOTICE

All dogs, regardless of breed, sex or age are required by law to be tagged.

The fee for each licence tag is \$5.00.

Licence tags are now available at the Minden Municipal Offices.

Further take notice that charges may be laid at any time after March 31, 1982 for any dog not licenced and tagged according to law.

Charges may also be laid if a dog is found running at large. A tag must be securely fixed on dog at all times except when lawfully hunting deer.

Richard C. Schell,
Municipal Law Enforcement Officer.

The students of the grade four class of Mrs. Bernie Davis discovered recently that you don't have to call out for pizza. The youngsters invaded the home economics kitchen at Archie Stouffer Elementary School to discover the fun of concocting their own pizza pie. The chefs are seen gathered around one of their masterpieces.

senior league

by Bert Harrison

We gathered in the chapel the first day of the week, in the absence of Mr. Burgess to hear Harold Thompson speak. He spoke on Jesus meeting the Samaritan woman at the well. Mrs. Thompson played and sang, and made a real nice prayer, asking God to keep us in His tender care.

Monday morning, fun and fitness down in the gym, where they exercise us well, to keep us nice and trim. Monday night we watched two interesting movies, "The Living Rain Forest", then "Fifty Years Later" - hard to say which was the greater.

Tuesday morning Captain Bruell from the Salvation Army in Haliburton held the service in the chapel here. Sorry I had to be away, and couldn't very well appear.

I wish to thank all who sent me lovely birthday cards on my thirty-ninth birthday. The cook who made that nice cake and iced it by the way - to Millie Wood, who sends the birthday cards - to all who have birthdays here. She keeps track of everyone, when their birthday does appear - to all the residents and all who wash the dishes. We thank you all so very much for all

your birthday wishes.

Wednesday afternoon, ladies in the craft room, working hard once more. I don't know what they have in store.

Fred Ballard came to play for us, and entertain us so. We can always depend on Fred to come - don't like to see him go.

Our tea party was put on this Thursday afternoon by the ladies from Eagle Lake. They not only brought a real nice lunch, but a delicious birthday cake. We had a birthday party for those who had birthdays in February. One lady did not attend - to tell why is not necessary. They also brought each one a card and a present wrapped with care. Mine was a hair brush to brush my thinning hair. A big "thank you" ladies.

Thursday night is bingo night here at Hyland Crest. The Kinsmen put it on, and always give us of their best.

Friday afternoon is sing-song time here at Hyland Crest. Mrs. Coburn and Mrs. Barron came, and gave us of their best. They come each Friday afternoon to entertain us here, to play and sing so nice for us, and bring a little cheer.

Pasture deadline

- Ag report -

Applications for pasturing yearling steers or heifers on the Victoria County community pasture must be returned to the Lindsay Agricultural Office by Friday, March 5th. All animals accepted must be vaccinated for black leg and malignant edema by April 1, 1982.

All heifers consigned must either be from "listed" herds or herds of negative status.

As well, all animals must be weaned, polled or dehorned and all males must be castrated by March 15, 1982.

Steers and heifers must not exceed 750 lbs. each and weigh at least 350 lbs. each when delivered to the farm.

Grazing charge is 20 cents per pound of gain with a minimum charge of \$40.00 per head for the grazing season.

Gains were excellent during the 1981 grazing season.

Two things make for happiness,

The giving and the taking.
It does not come by chance
For it's something of our making.

It does not drop from Heaven,
Like the manna from above;

It is the result of how we live,
And how we love.
Until next week.

ONTARIO GOVERNMENT NOTICE

HALF-LOADING

HIGHWAY LOAD LIMITS SPRING 1982

Load restrictions, as outlined below, on certain highways in the Huntsville District will go into effect once the Load Restriction Signs are erected on or after March 1, 1982.

NOTICE

IN THE MATTER OF the Municipal Act, and IN THE MATTER OF a proposed By-law of the Corporation of the Townships of Anson, Hindon and Minden to stop up, close and convey to adjoining landowners part of the former travelled Old Twelve Mile Lake Road situate in Part of Lot 13, Concession 11, Township of Minden.

NOTICE IS HEREBY GIVEN pursuant to Section 443 of the Municipal Act R.S.O. 1970, as amended, that the Council of the Corporation of the Townships of Anson, Hindon and Minden at its regular meeting to be held in the Municipal Council Chambers, Milne Street, Minden on WEDNESDAY, MARCH 10th, 1982 at 9:00 A.M. proposes to consider and, if deemed advisable declare its intention to pass, following appropriate statutory notice to the Clerk of the County Council of the Provisional County of Haliburton, a By-law to stop up, close and convey the above-noted portion of roadway more particularly described as follows:-

All that part of Lot 13, Concession 11, in the Township of Minden, in the Provisional County of Haliburton, designated as Parts 1, 2 and 3 on a Plan of Survey by H.C. Bishop, O.L.S. dated December 18, 1981.

AND FURTHER TAKE NOTICE that before passing said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Counsel, Solicitor or Agent any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at MINDEN this 10th day of February, 1982.

Mrs. Elinor Burke, A.M.C.T.
Clerk-Treasurer
Townships of Anson, Hindon and Minden
Box 98, Minden, Ontario K0M 2K0
Phone (705) 286-1260

The plan of survey referred to herein is available for perusal at the Municipal Offices during normal office hours.

around the county town

by Yvonne Guida

Mr. and Mrs. Henry Howe celebrated their sixtieth wedding anniversary at a party held at the Stanhope Fire Hall last Saturday. It was a beautiful affair with a large gathering of their family and friends. Among the many good wishes was a telegram from Queen Elizabeth and a handsome plaque from Premier Bill Davis. All our good wishes to Mr. and Mrs. Howe, may they celebrate many more happy anniversaries.

I am sorry to report that Sinclair Nesbitt, former reeve of Minden, is at present a patient in St. Michael's Hospital in Toronto. All our good wishes go to him for a speedy recovery.

The Minden Figure Skating Club will hold its annual Carnival on Sunday, March 14 at 2 p.m. at the Minden Arena. The theme of this year's carnival is T.V. on Ice. Tickets are available from club members on request.

The Hyland Crest Auxiliary will host a card party on Friday, March 12 at 8 p.m. in the auditorium at the Home. There will be prizes and refreshments will be served. The cost is \$1.00 per person. Everyone is welcome.

Fred, Deborah and Paul Hewitt had a pleasant stay with Fred's mother, Mrs. Ern Hewitt this past week-end.

Phyllis Kennedy was home this weekend and with her was her daughter Heather. Her son Craig has been at home for a few days.

Judy and Wayne Johnson are the proud parents of a new baby boy born February 25 in Civic Hospital in Peterborough. All our good wishes to baby, parents and sister Sarah.

Ethel Leigh had a pleasant holiday last week. She attended the christening of her great grandson, Fean Jeoffrey O'Keefe, son of Sharon and Terry O'Keefe in Carp, Ontario, last Sunday. It was a lovely affair, with many relatives and friends attending. Then she attended the birthday party for her daughter Marilyn Robertson on February 18th, given at the home of her grand daughter, Maureen Reid in Carleton Place. It was a delightful party and everyone enjoyed the festivities. Best wishes to Fean, Marilyn and the proud mother and grandmother.

Happy Anniversary and best wishes, with love to my son and daughter-in-law, Dr. and Mrs. James Guida of Lake St. Louis, Missouri, who celebrated their tenth wedding anniversary on Friday, February 26. I wish you many, many more Jim and Connie.

Last week I was remiss in not mentioning Georgina Deeks who worked so hard in making all the delicious sandwiches and cakes for the shower for Mary Ann Corvinelli, given by Gloria Lemieux. I apologize to Georgina.

There has been a great response to the Easter Eggs which Barbara Trocewicz and Leone Skead are making. So far there are at least 300 orders for these delicacies. Keep up the good work girls. They will be a welcome addition to everyone's Easter basket.

Last Sunday, my father Walter Noice celebrated his birthday at a delightful luncheon with myself, and some close friends at the Schnitzel House - recommended for its warm and cozy atmosphere, its good food and attentive staff which aims to please. I would like, on behalf of Dad, to thank Donald Finn, Dick Schell, Glynne and Lyndsie Lewis, Earl Hewitt, Bill and Flo O'Brien, Les and Mary Eaton, Lillian Pettit, The Lutterworth Estates Assoc., Masonic Lodge, Minden Chamber of Commerce, The Reverend Andrew Hutchison, Father and Mrs. George Elliott, and all the people who sent cards and good wishes, for making this birthday a memorable one for him.

Velma Harrison of Maple Lake is very kindly sharing two household hints with our readers. If your copper needs cleaning, apply catsup to a soft cloth. Rub vigorously and wash in hot, sudsy water. Dry, then polish. To remove paint from porcelain or china, apply Absorbine Jr. Use any type cloth. Rub Absorbine on paint, and this should remove it. Helps clear up aches and pains in porcelain, too.

There will be a meeting of the Art Gallery Committee, held at the Minden Cultural Centre, on Monday, March 8 at 8 p.m.

Jacqueline Ziorjen of Toronto spent a very pleasant weekend at the home of her parents, Gino and Margo Ziorjen. They celebrated her birthday with a lovely dinner, and family and friends had a most enjoyable time. Happy Birthday Jacqueline from us all.

Please keep in mind the up and coming exhibit to be held at the Agnes Jamieson Gallery in May. We have had some response to our request for photographs, paintings and clippings from old newspapers. Anything to do with the past, with regard to Minden and vicinity will be greatly appreciated.

I am very sorry to report that Bruce Simms of the

Hyland Crest Senior Citizen's Home passed away last week. Our deepest sympathy goes to his family and friends.

The St. Paul's Parish Mini Card Party winners are as follows: Cribbage - Isabel Harrison and Luther Wilson; Euchre - lone hands (on a cut) Shirley Elcome and Jeanne Sears - (on a cut) Johann Beattie.

A very happy birthday to Alfred Richardson of the Hyland Crest Senior Citizen's home who celebrates his birthday Tuesday, March 2. Our best wishes to you Alfred.

Mr. and Mrs. William Barkwell of Huntsville spent a very pleasant weekend with Mrs. Taylor Kernohan.

There will be free movies shown in the Common Room of the Minden Cultural Centre for children and adults, on Friday, March 12. The movies for adults will be shown from 2 to 3 p.m., and will consist of Travelogues and Documentaries. Doors will open at 1:30. The movies for children will be shown at 7:15 to 8:15 and will consist of cartoons. Doors will open at 7 p.m.

The Minden Branch of the Red Cross will be holding its Annual Meeting at the Wagon Wheel on Monday, March 15 at 6:30 p.m. As usual, this will be a dinner meeting. Guest speaker will be Sergeant Bailey of the OPP. Tickets are available from Paul Heffer at the Minden Drug Store.

Wishing my son Michael, who lives in Oxford, England, and who will be celebrating his birthday on Tuesday, March 2 a wonderful birthday and many, many happy returns of the day. With much love.

The following recipe comes from Mrs. Jonathan Sherman - wife of Bishop Sherman. Bishop Sherman was consecrated a bishop in the Episcopal Church for Long Island in the Cathedral of Incarnation in 1949. He served as Suffragan Bishop for 17 years, and in 1966 he was elected as Diocesan Bishop. I was privileged to be chosen to paint the Bishop's official portrait. Mrs. Sherman has chosen for us an old-fashioned recipe which her family and friends have enjoyed through the years.

Deep Dish Apple Crunch
4 - 6 apples, 1/4 cup water, 1/4 cup sugar, 2 tbs. lemon juice (optional, depending on tartness of apples), 3/4 cup flour, 3/4 cup sugar, 1/2 tsp. cinnamon, 1/4 tsp. nutmeg, 1/2 cup butter. Peel, core and slice apples into deep, buttered baking dish. Combine water, sugar and lemon juice and pour over apples. Combine flour, sugar and cinnamon, nutmeg and butter to form a crumbly mixture. Spread over apples covering completely. Bake at 350 degrees until apples are tender, and crust is browned, about 30 minutes. Serve warm, topped with whipped cream or ice cream.

lines from lutterworth

by Jean Lacey

Hi! We had a very lovely weekend, if somewhat cooler than normal. Hope you enjoyed it. I think most of the snowmobilers did, judging by the numbers going past our house.

The old man is still fishing everyday, but doesn't seem to catch any. Maybe he just goes to get away from me?

Lil Porter has been visiting with her sister-in-law in Cranford, New Jersey.

So pleased to hear that Ada Brown is home from hospital.

Everyone had a lovely time, including Marg and Floyd Miller, at the sixtieth anniversary dance for Mr. and Mrs. Henry Howe, on Saturday evening.

The Ladies Auxillary, Branch 129 of the Legion, are having a Flea Market, on March the 6th, from 10 a.m. to 4 p.m. at the Legion Hall in Haliburton. Lunch is available.

Sorry to hear that Mr. Bruce Sims of the Home has passed away. Our prayers and sympathies are with his family.

Junior Horticulturalists - there is a meeting on Tuesday March 9 at 7:30 at the Municipal Office. Please plan to attend.

Sorry to hear Frank Dunsford has been feeling

under the weather this past week. Hope he is up and about soon.

Hint of the Week
Take the "pane" out of washing windows. Never wash windows on sunny days. They will show streaks. Use 1/2 cup ammonia, 1/2 cup white vinegar and 2 table-
spoons of cornstarch to a bucket of water for a perfect washing solution. Wipe with newspapers. After windows have dried, rub a clean black-board eraser over them for a really fine shine.

The world isn't any worse, you just understand it better.

Kid's Korner
Hi! kids how about joining the Junior Horticulture Society? I'm sure you will enjoy it. You will learn how to grow flowers and vegetables. And learn some crafts. Come and hear more about it at the next meeting.

What fish is very evil?
The devil fish

Why does the statue of Liberty stand in New York?
Because it can't sit down

What vegetable hurts when you step on it?

A corn

What did the 300-pound mouse say?

Here kitty, kitty, kitty

What runs without feet?

Water

What is a raisin?
A worried grape

Bye for now. Take it easy. God bless till next time.

CARD OF THANKS

Darnell and Darren Gilbert
wish to thank Dr. Holiday
Rhodes, nurses and staff of
Minden Red Cross Hospital
for their kindness and care
while we were patients there.
Darren would also like to
thank the Minden Ambulance
Drivers, Dr. McGillvary and
nursing staff of Peterborough
Civic Hospital, Uncle Larry
and Allan for getting Mom
down to see me. Grandma and
Grandpa Anderson and all
our family and friends for
their phone calls and offers of
help. The Bank of Commerce
for giving Mom time off to
care for us. Thank you all.

Bradley, Sherry & boys

The family of the late John
Harrison would like to
express our sincere thanks to
everyone for kindnesses and
expressions of sympathy
given during our recent
bereavement in the loss of our
brother and uncle.

IN MEMORIAM

In memory of a dear
husband, Thomas C. Bag-
shaw, who passed away
February 26, 1950.
Though his smile is gone
forever,
And his hand we cannot
touch,
Still we have so many
memories,
Of one we loved so much.
His memory is our keep-
sake,
With which we'll never
part,
God has him in his keeping
We have him in our hearts.
Always remembered by his
wife Vera.
